Gary,

Thanks for the information. We will pursue.

Have you gotten a new assignment yet?let us know if you get back to Houston.

Thanks again for your help.

Dean

I had a conversation with the contractor with Lubrizol. They do not appear to be in any hurry to hydroblast the Used Oil Tanks on the CES Site unless the Bankruptcy Trustee tells them that they have an interested party for the tanks. If you guys are still interested in the tanks I recommend that you contact David Askanase and Steve Shurn and let them know that you are still interested. I would confirm that you guys are willing to pay the expense of removing the tanks (specifically identify the tanks that you agree to remove) from the site.

The conditions that I think you would want are that:

<!--[if !supportLists]-->1. <!--[endif]--> Lubrizol cleans the tanks to satisfy the TCEQ clean closure requirements; and,

<!--[if !supportLists]-->2. <!--[endif]-->Lubrizol pressure washes the bottom of the tanks as they are being removed from the containment.

Steve Shurn (Attorney for David Askanase): sshurn@hwa.com 713.328.2824

David Askanase (Bankruptcy Trustee): dja@hwallp.com 713.759.0818

Thanks
